

BUY A HUNDRED

If You Buy 100 Shares of

Arizona-Oklahoma Oil

Stock Today it May Make You

Independent for Life

Within 6 Months

We have 652 acres at present with an option of obtaining as much more ground.

We are located 300 feet from a well that produced 500 barrels per day.

We have funds sufficient to drill now, but are waiting for enough money to drill ten wells. According to the Government's report 12 per cent of the wells drilled are dry, and 88 per cent have Oil. In this case we would have 80 Oil Producing Wells. If we should ONLY have one, even then a person holding 100 SHARES could realize a very large profit.

We would be glad to go into details by applying to our broker or his sub-agents, who are named here below. Over two-thirds of the oil produced in the United States in from Oklahoma, at a much smaller cost.

REMEMBER

OUR ADVICE

INVEST

NOW as We May Strike Oil Tomorrow

ONE GOOD INVESTMENT WILL MAKE YOU MORE MONEY THAN A WHOLE LIFE TIME OF LABOR.
